

### Expertise in Full-Service Fixture Installation

Harco's Installation division provides the best quality and service available for professional installation of retail fixtures. Our executive team brings decades of experience in new store set up, remodels, and renovations on a single-store and multi-site scale.

Our team has worked with many of the leading nationwide retail and food service companies including T-Mobile, Best Buy, Clearwire, Rite-Aid, CVS, Albertsons, Vons/Pavilions, and Albertsons

**Open Stores are an opportunity that we enjoy serving;** our team maintains a "customer first" approach in project planning and in the execution of the tasks. We will flex our schedule to ensure that your customers' shopping experience remains a positive one, even as we work to enhance the store installations.

**Food Service Establishments bring special challenges, including health and safety considerations.** Harco executives have been consistently selected by the nation's leading chains. We provide professional installation for all required food service fixtures including finish carpentry, cooler boxes, prep room equipment, stainless steel work, and food storage cases.

*"We have one of the most problem-solving teams out there; we are looked upon as the people who will always find a way to get the job done – on schedule and on budget."*

*Randy Hobby, Vice President, Installation Division*
